In Case You Missed It: [J.P. Morgan](#) Continues To Be Bullish On India - Labels It Their Number One Market In Asia 🇮🇳

The fifth largest economy in the world, with a population of 1.4 billion has a plethora of tailwinds and continues to benefit from China's weakness.

Just a few months ago, JP Morgan announced it would be adding \$330 billion worth of Indian government bonds to its benchmark EM indices from 28 June 2024.

And their positive sentiment has continued into 2024.

India is hot right now!

Bullish.
